

Saka no Ue no Kumo Museum

Saka no Ue no Kumo Museum is a part of a concept of the whole town of Matsuyama as a field museum. The concept of the field museum is for Matsuyama to follow the path of progress as a better city. The work "Saka no Ue no Kumo" by Ryotaro Shiba, which forms the basis of this museum, was depictions of the forming of a modern government in Japan in turbulent times. I am sure at this Museum, people will not only study the works by Shiba, but the paths for people to deepen their compilation about the future will also open up through reconsideration.

Masatake Matsubara, Director,
Saka no Ue no Kumo Museum

Exterior view (Design: Tadao Ando)

3rd floor Exhibition Room 1
